Alphacool Core 1 White

Alphacool article number: 13445

Quick Info

Alphacool presents the Core 1, a new generation of CPU water cooling. The latest desktop processors are continuously becoming more powerful, but also produce more and more waste heat. The Core 1 reliably solves this problem with the help of its entirely new 3D-Jetplate, which is also used in industrial applications. The all-metal CPU water cooler not only impresses with its elegant appearance, but also features a new mounting system that simplifies installation.

- High performance Desktop CPU Cooler
- Reliable cooling with 3D-Jetplate
- Reworked Mounting-System
- Optimized for latest CPU Generations

Compatibility

AMD: AM4 / AM5
Intel: LGA 1700 / LGA 1851

Scope of delivery

1x Core 1 CPU Cooler
1x Thermal Grease
1x Putty tool
1x CPU Brackets AMD Set
4x Threaded bolt AMD
4x Screw sleeve
1x CPU Brackets INTEL Set
1x Core Backplate
4x Threaded bolt INTEL
4x EVA Washer

Technical data

Dimensions (L x W x H)	72 x 72 x 26,50mm
Material Cooler	nickel plated copper
Material cooler top	Brass
Material threads	nickel plated Brass
Threads	2 x G1/4"
Fin thickness	0,4mm
Fin distance	0,4mm
Pressure tested	0,8 bar
Max working temperature	60°C
Weight	540g
Color	white

Download links

Manual	13445_Alphacool_Core_1_White_Manual.pdf
Product pictures	13445_Alphacool_Core_1_White_pics.zip
EU-DoC / CE / RoHS	Alphacool_EuDoc_CE_RoHS_13445.pdf

Packaging dimensions per unit

L x W x H	255 x 175 x 50 mm
Weight	970 g

Other data

Certificates	CE, FC, RoHS
EAN	4250197134453
Customs code	84195080900
Guarantee	5 years

Article text

Alphacool presents the Core 1, a new generation of CPU water cooling. The latest desktop processors are continuously becoming more powerful, but also produce more and more waste heat. The Core 1 reliably solves this problem with the help of its entirely new 3D-Jetplate, which is also used in industrial applications. The all-metal CPU water cooler not only impresses with its elegant appearance, but also features a new mounting system that simplifies installation.

The best of old and new

Alphacool brings the best of both worlds together with the Core 1. In addition to the new 3D-Jetplate, Alphacool returns to its roots by using a proven cross-slot technique to distribute coolant evenly across the redesigned cooler base. Inside the cooler, O-rings ensure precise water flow for effective cooling. The Core 1's housing is machined from a high-quality brass block and features nickel-plated connectors. The cooler's copper base, also nickel-plated, has been enlarged to ensure full coverage of large CPUs.

New Mounting System

The mounting system has also been revised. Compared to previous Alphacool models, it requires fewer screws. First, the pre-assembly of the backplate (Intel) is done with four spacers. After that, the thermal paste is applied to the CPU. Then, the matching mounting frame is put on the CPU cooler and fastened with four nuts on the spacers.

Core Design

The functional and elegant design is a key element of Alphacool's Core series. The nickel-plated connectors and the discreet contour line stand out from the high-quality brass housing. The rounded corners add the perfect touch to the overall look. The Core 1 is available in various color designs, as well as in discreetly illuminated aRGB Aurora models.

Parts List

Item	Quan-tity	Description	Material
1	1	1025249 10221 1 - Alphacool Logo Batch 15x15mm 2023 Batch	PA MACM12 + PA 12, GHLT, 18-020
2	1	Cover White	Aluminium 6061
3	1	Core 1 Brass Base	Brass CuZn39
4	1	Core 1 O-Ring 13 x 2 NBR 70	NBR Shore 70
5	1	Core 1 Jet with rubber	Nylon 66
6	1	Core 1 Jet sealing	VMQ Shore A 70
7	1	Core 1 ORing 55 x 2 NBR 70	NBR Shore 70
8	1	Core 1 Copperplate	Cu-HCP
9	5	Core 1 ISO 10642 - M3 x 20	Stainless steel AISI 304
10	1	Core 1 ISO 10642 - M3 x 12	Stainless steel AISI 304
