Alphacool MCX one

Alphacool article number: 12257

Quick Info

The MCX one miniature waterblock offers a multitude of possibilities. It allows most efficient cooling of e.g. RAM modules on graphics cards or VRM modules and can be mounted easily. If the criteria is flexibility and design in combination with optimal performance, the MCX one is an adequate solution. Your investment is also long-term as the MCX components can be used again.

- Miniature waterblock
- Optimum performance
- Flexible use

Scope of delivery

1x MCX one
