Minus Pad Basic

Minus Pad Advance

Minus Pad Pro

High Performance Cooling Solutions

With the new Minus Pad Basic, Advance, and Pro series, Thermal Grizzly is expanding its thermal pad portfolio with a range of advanced pads. Based on the proven Minus Pad 8, these new pads have been specifically enhanced to significantly improve thermal conductivity, compressibility, while lowering the price at the same time.

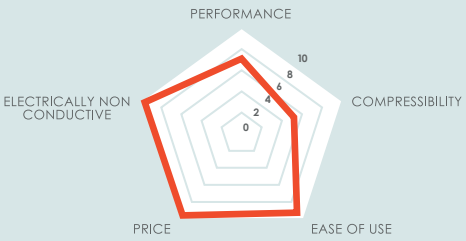

- Minus Pad Basic: Good thermal conductivity, good compressibility, and an excellent price-performance ratio.
- Minus Pad Advance: Even better thermal conductivity and higher compressibility.
- Minus Pad Pro: Extremely high thermal conductivity and outstanding compressibility – at a slightly higher price.

The electrically non-conductive pads in the Basic, Advance, and Pro series are ideal for SSDs, graphics card coolers, GPU water blocks, and electronic components such as voltage regulators and RAM.
The Minus Pads are available in sizes of 100 × 100 mm and 120 × 20 mm, with thicknesses of 0.5 mm, 1.0 mm, 1.5 mm, 2.0 mm, and 3.0 mm. The MinusPad Pro variant is additionally available in thicknesses of 0.75 mm and 1.25 mm.

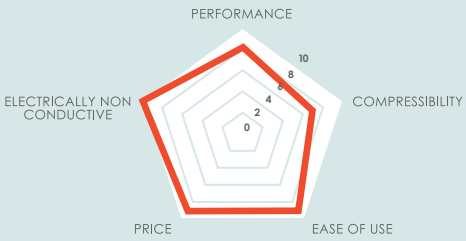

Short Information

- Easy to use
- Available in common sizes
- Good to very good compressibility and thermal conductivity
- Electrically non-conductive
